Fuji Electric India

Fuji Electric has been operating in India since 1985. Initially, this was through joint ventures for the manufacture and sales of Instrumentation and UPS products. In 2009, Fuji Electric India Pvt. Ltd., a 100 % Subsidiary of "Fuji Electric Group" was established. Fuji Electric over the next decade expanded across India to establish leadership in Drives for Lift & Escalator segment and also became a leading Motion control solutions provider for packaging and special purpose machines. In 2019, with the acquisition of Consul Neowatt, the largest Indian UPS company, Fuji Electric India now has a nation wide presence with over 1,000 employees serving customers across all Industry verticals. Fuji Electric India has an aggressive growth plan to become the leading Energy and Automation solutions provider in India by launching new products and solutions supported by expanded sales reach and addition of manpower resources, R&D Centers, and manufacturing capability in India.
